

Designed with lasting beauty, incredible durability and easy maintenance, there's no compromising with high-performance composite decking. That's why high-performance composite is the only type of decking we make. We've ourselves against other types of decking for a head-to-head comparison to prove that we outdeck, outlast and outperform the rest.

Each Calvary Composite Decking is installed with Calvary's EZ Rail®, the fastest EZ Decking Removal system in Singapore.

- Class 2 fire rated (Tested with TUV)
- R11 Anti-slip (Tested with SETSCO)
- SGBC certified 3 ticks
- 15 years warranty
- Low Thermal Conductivity (Tested with SETSCO)

EZRAIL®  
COMPATIBLE

# Decking, Enter the great outdoors.

*Calvary*

EZ Rail® is made up of Polypropylene(PP) plastic. PP is one of the strongest and durable plastic in the plastic industry. It is a tough, rigid and crystalline thermoplastic produced from propene (or propylene) monomer, known as a linear hydrocarbon resin. The clip is made in such a way it is spring loaded to absorb expansion & contraction impacts.

**FASTER**

EZ Rail® clip system reduces decking installation time by 30%.

**EASY TO REPLACE**

If a deck board should be damaged, EZ Rail® makes replacing damaged boards significantly easier.

**EASY SETUP**

Spend less time on your hands and knees during deck board installation compared to traditional methods.

**HIDDEN JOIST**

EZ Rail® clips are 50mm wide and cover the visible surface of the joist. It is positioned at the exposed gap between boards. No more shiny aluminum runners visible through the deck gaps.

**PET FRIENDLY**

**KIDS SAFE**

**EASY REMOVAL**

#### LAVA RESIDENTIAL

A reddish brown coloured decking to mimic Merbau timber. It gives a homey vibe blending into the surroundings of warm tone coloured buildings.

#### IVORY RESIDENTIAL

Looking at the vast skylights and the infinity pool, Gambir chooses IVORY to explore contemporary architecture's appreciation of modern rustic design colours. IVORY mimics a faded timber look that is timeless and unique.

#### RUM RESIDENTIAL

The most favorable colour choice by many is RUM as this deck can complement almost any type of surroundings. It mimics dark walnut which brings a rich color contrast that accentuates the decking area to stand out as the highlight of the place.

#### HAVANA COMMERCIAL

Chosen as a color between old and new timber, mimicking natural teak. With the open sea as a backdrop, Havanna's golden brown glisters inside this alfresco dining establishment set within an enclave of resorts.
