

Designed with lasting beauty, incredible durability and easy maintenance, there's no compromising with high-performance composite decking. That's why high-performance composite is the only type of decking we make.

We've pitted ourselves against other types of decking for a head-to-head comparison to prove that we outdeck, outlast and outperform the rest.

Each Calvary Composite Deck is installed with Calvary's EZ Rail®, the fastest EZ Decking Removal system in Singapore.

- Class 2 fire rated  
(Tested with TUV)
- R11 Anti-slip  
(Tested with SETSCO)
- SGBC certified
- Low Thermal Conductivity  
(Tested with SETSCO)
- 10-Year Warranty

#1 REMOVABLE DECKING IN SINGAPORE

EZRAIL®  
COMPATIBLE

Some of our works can be seen at:  
Waterbay Condo | National Gallery | W Hotel | One Fullerton | Gambir Ridge

EZ Rail® is made up of Polypropylene(PP) plastics. PP is one of the strongest and durable plastic in the plastic industry. It is a tough, rigid and crystalline thermoplastic produced from propene (or propylene) monomer, known as a linear hydrocarbon resin. The clip is designed to be spring-loaded to absorb expansion and contraction impacts.

EASY SETUP

EZ Rail® clip system reduces decking installation time by 30%.

EASY TO REPLACE

If a deck board is damaged, EZ Rail® makes replacing it significantly easier.

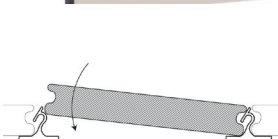

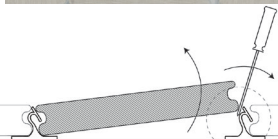

FASTER

Spend less time on your hands and knees during deck board installation compared to traditional methods.

HIDDEN JOIST

EZ Rail® clips are 50mm wide and cover the visible surface of the joist. They are positioned at the exposed gap between boards. No more shiny aluminum runners visible through the deck gaps.

PET FRIENDLY

Civil Service Club @ Changi

### HAVANA COMMERCIAL

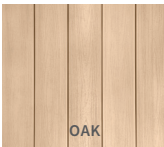

Chosen as a color between old and new timber, mimicking natural teak. With the open sea as a backdrop, Havanna's golden brown glisters inside this alfresco dining establishment set within an enclave of resorts.

Woodlands Residences

### OAK RESIDENTIAL

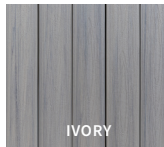

Natural OAK-hued decking that exudes warmth and timeless charm. It creates a cosy space for an indoor balcony, blending effortlessly with neutral flooring for a welcoming and harmonious space.

Gambir Ridge Condominium

### IVORY RESIDENTIAL

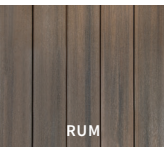

Looking at the vast skylights and the infinity pool, Gambir had chosen IVORY to explore contemporary architecture's appreciation of modern rustic design colours. IVORY mimics a faded timber look that is timeless and unique.

Waterbay Condominium

### RUM RESIDENTIAL

The most favorable colour choice for many is RUM, as this deck can complement almost any type of surroundings. It mimics dark walnut, which brings a rich colour contrast that accentuates the decking area, making it stand out as the highlight of the place.

## PROFILE

### GROOVED EDGE BOARD

ACTUAL DIMENSIONS  
21MM X 140MM X 2400MM

### FASCIA

ACTUAL DIMENSIONS  
10MM X 120MM X 2200MM

Our grooved edge boards are installed with our Ez-Rail® Fastening System beneath the deck surface, leaving a tidy finish free of screw holes.

Our FASCIA boards are installed as riser for stairs or end termination.
